

ABHISHEK KUMAR

Quality Engineer • Test Automation Engineer (Tricentis Tosca)

Gurugram, India | +91 84486 36006 | rajputabhishek677@gmail.com | linkedin.com/in/abhishek-kumar2301

PROFESSIONAL SUMMARY

Tricentis-certified Quality Engineer with ~5 years in test automation across web, desktop and API layers, currently at Optum (UnitedHealth Group). Builds and maintains scalable Tosca automation — reusable XScan modules, data-driven test design (TCD), TQL-driven maintenance and distributed execution with Tosca DEX — and integrates suites into CI/CD pipelines. Previously Senior Software Engineer at Expleo, owning release test strategy and team automation standards. Recipient of the Bravo! Diamond Award (UnitedHealth Group) and three further awards for automation delivery.

TECHNICAL SKILLS

Test Automation: Tricentis Tosca (XScan, TCD, TQL, DEX, Test Sheets, Recovery/Cleanup Scenarios)

API Testing: REST & SOAP via Tosca API modules, Postman, SoapUI

Execution & CI/CD: Tosca DEX (distributed, parallel, event-driven and scheduled runs), CI/CD pipeline integration

Testing: Functional, Regression, Smoke, UI, API, Database, Risk-Based Testing, Test Data Management

Tools & Data: JIRA, Confluence, HP ALM, Rally, MySQL / SQL

Process: Agile (Scrum, Kanban), STLC, SDLC, Release & Regression Planning

WORK EXPERIENCE

Quality Engineer

Nov 2025 – Present

Optum Global Solutions (UnitedHealth Group) • Gurugram, India

- Develop and maintain Tosca automation suites for web and desktop applications within the team's established framework.
- Build reusable UI modules with Tosca XScan and parameterized, data-driven test cases in TCD to cover new feature functionality.
- Automate REST and SOAP API validation in Tosca as part of sprint and release testing.
- Support integration of Tosca runs into the CI/CD pipeline and execute distributed runs through Tosca DEX; publish daily regression health reports.
- Execute functional, smoke and regression cycles each sprint; triage and track defects in JIRA with developers to limit re-testing.
- Identified and escalated a critical production-impacting defect — recognized with the **Bravo! Diamond Award** (Jun 2026).

Senior Software Engineer

Sep 2021 – Nov 2025

Expleo Group • Pune, India

- Owned end-to-end Tosca automation suite design and delivery for web and desktop applications, from framework architecture through rollout.
- Defined release-level test strategy for major and minor releases — automation scope, risk coverage and test data planning.
- Drove CI/CD integration of Tosca suites and ran distributed, parallel execution via Tosca DEX across remote agents; optimized agent load balancing to raise throughput.
- Architected data-driven, parameterized frameworks in Tosca TCD with centralized test data, scaling coverage across multiple product lines and cutting maintenance effort.
- Established team standards for reusable XScan modules, libraries, RTBs, shared test sheets and business-rule templates; used TQL for bulk artifact updates and reporting.
- Led REST and SOAP API automation, validating status codes, payloads, headers and authentication.
- Built recovery and cleanup scenarios that kept runs stable through unstable environments and system-state failures.
- Modularized regression suites and enabled distributed execution, shortening regression cycles.
- Delivered releases with zero UAT escalations across multiple sprint cycles — recognized by the client.

- Mentored teammates through test reviews and led retrospectives to raise team-wide QA standards.

CERTIFICATIONS

Tricentis Academy: AS1, AS2, TDS1, TDS2, AE1, API, TQL

ISTQB: Certified Tester — Foundation Level

Generative AI: AI Dojo — Optum.ai (Mar 2026)

Other: SQL · Agile with Atlassian Jira · Allianz ABS (L1)

AWARDS & RECOGNITION

Bravo! Diamond Award — UnitedHealth Group (Jun 2026): escalated a critical production-impacting defect.

Bold Mind Award (Dec 2024): innovative solutions and Tosca test strategy enhancement.

Applause Award (Apr 2024): reduced regression cycle time through automation optimization.

WoW Award (Sep 2023): exceptional contribution to enterprise automation delivery.

EDUCATION

B.Tech, Computer Science & Engineering — Galgotias University, Greater Noida

2021
