

ABHISHEK KUMAR

Quality Engineer · Test Automation (Tricentis Tosca)

+91 84486 36006 | rajputabhishek677@gmail.com | linkedin.com/in/abhishek-kumar2301

PROFESSIONAL SUMMARY

Quality Engineer with 5 years of experience in test automation, API validation, and Agile quality assurance. Skilled in designing and maintaining scalable automation suites with Tricentis Tosca — including reusable module development, data-driven test design (TCD), and distributed execution through Tosca DEX. Experienced in defect lifecycle management, regression planning, and CI/CD-integrated testing, and recognized with multiple awards for improving automation delivery and reducing regression cycle time.

CORE COMPETENCIES

Test Case Design

Test Data Management

Risk-Based Testing

Requirement Analysis

Regression Planning

Agile Test Strategy

Functional Coverage Mapping

Release Cycle Alignment

Sprint-Level Testing

TECHNICAL SKILLS

Test Automation: Tricentis Tosca (XScan, TCD, DEX, TQL), Postman, SOAP UI
Testing Types: Functional, Regression, Smoke, API, UI, Database
Defect & Collaboration: JIRA, Confluence, ALM, Rally
Methodologies: Agile (Scrum, Kanban), SDLC, STLC
CI/CD: Tosca DEX (distributed, parallel execution)
Databases: MySQL
Documentation: Microsoft Word, Excel, PowerPoint

WORK EXPERIENCE

Quality Engineer

Optum Global Solutions

- Develop and maintain automation suites for web and desktop applications in Tricentis Tosca within the team's established framework.
- Build and maintain reusable UI modules through Tosca XScan to broaden automation coverage across interfaces.
- Design parameterized, data-driven test cases in Tosca TCD to validate new feature functionality.
- Execute functional, smoke, and regression cycles each sprint in line with Agile ceremonies.
- Engineer recovery and cleanup scenarios so test runs stay reliable during unstable environment states.
- Triage, log, and track defects in JIRA, partnering with developers to close issues quickly and limit re-testing.
- Assist in integrating Tosca automation runs into the CI/CD pipeline; publish daily regression reports on suite health.

Senior Software Engineer

Expleo Group, Pune, India

- Owned end-to-end Tosca automation suite design and delivery for web and desktop applications — from architecture through rollout.
- Established the team's reusable UI module standards via Tosca XScan, extending automation feasibility to new interfaces.
- Architected data-driven, parameterized test frameworks in Tosca TCD to scale testing across multiple product lines.
- Led REST and SOAP API test coverage, validating response codes, payloads, and headers in real time.

Nov 2025 – Present

Sep 2021 – Nov 2025

- Ran distributed, parallel test execution via Tosca DEX across remote agents using event-driven and scheduled runs.
- Standardized test scenario logic across the team with shared test sheets, business rule templates, and TQL-driven bulk artifact updates.
- Defined release-level test strategy — scope, risk coverage, and test data planning — and drove CI/CD integration of automation suites.
- Mentored teammates through code/test reviews and led retrospectives to raise team-wide QA standards.

■ KEY ACHIEVEMENTS

- Reduced regression cycle duration by modularizing test cases and enabling distributed execution.
- Increased API test coverage through automated validation of payloads, status codes, and authentication.
- Minimized maintenance effort by building reusable templates and centralizing test data in TCD.
- Improved Tosca DEX throughput through optimized agent load balancing and parallel run configuration.
- Delivered defect-free releases across multiple sprint cycles with zero UAT escalations — client recognized.
- Delivered critical automation ahead of schedule, improving QA timelines and early feedback cycles.

■ CERTIFICATIONS

Tricentis Academy: AS1, AS2, TDS1, TDS2, AE1, API, TQL

ISTQB: Certified Tester — Foundation Level

Allianz: ABS (L1) · **SQL Certification** · **Agile with Atlassian Jira**

Generative AI: Optum.ai AI Dojo (Mar 2026)

■ AWARDS & RECOGNITION

Bravo! Diamond Award — UnitedHealth Group (Jun 2026) — proactively identified and escalated a critical production-impacting defect in the TOSCA Automation team.

Bold Mind Award (Dec 2024) — for innovative solutions and test strategy enhancement in Tosca.

Applause Award (Apr 2024) — for reducing regression cycle time through automation optimization.

WoW Award (Sep 2023) — for exceptional contribution to enterprise automation delivery.

■ EDUCATION

Bachelor of Technology — Computer Science & Engineering

Galgotias University, Greater Noida, UP · 2021
